Policy

ORDERING: Your order will be greatly expedited by the proper use of our mail order forms, one of which is included in this catalog and will be included with each order. Please use consecutive lines and indicate the quantity desired, the 6-digit part number, and the description (only that part of the catalog description in capital letters). Please take pains to quote the proper part numbers: One number off and you may end up with a Lamborghini gearbox!! Where applicable, be sure to state size, color, etc. Please note we have a \$2.50 minimum order. Last, but not least, be sure to note your Customer Number on all orders and correspondence and notify us of any address change when ordering.

Items not listed in this catalog, even though illustrated, are no longer supplied and are not available from any known source. When we receive word from the Factory that the supply of an item is exhausted we immediately make every effort to continue the supply by locating alternate sources or manufacturing the item in our own machine shop. As it is sometimes impossible to exactly duplicate an original part, we will offer the best possible substitute. Some such items are marked "replacement" in our catalog. Some 'chrome strips' are now supplied in polished, R-5 anodized aluminum as used on all present-day automobile trim; superior in many ways, although lacking the initial deep lustre of true chromium plating. Should you not be completely satisfied with any such item you may return it for full credit.

Each assembly (or sub-assembly) is listed as the first item; individual components (indented) are included with the main assembly but may be ordered separately. The column marked "qty req" indicates the quantity fitted; all prices are for one item only. R/H indicates right hand (from the driver's position); L/H indicates left hand side. D/W indicates disc wheels, W/W wire wheels. Certain items are offered as 'rebuilt/exchange'. If it is not convenient to send the old part in with your order, you may remit the "core charge" (usually the difference between new and rebuilt) which will be refunded upon receipt of your complete, assembled, rebuildable "core". (** appearing to the left of a part number denotes a new item).

PAYMENT: Payment should be made by Cashiers Check, Money Order, BankAmericard or Master Charge. Personal checks may cause a delay in shipment. If you wish your order charged to your Bank Americard or Master Charge, be sure to list ALL numbers on your card (long and short numbers, expiration date, etc) as well as your authorizing signature. We discourage COD shipments due to the high costs involved. We suggest including 10% over the amount of your parts total to cover approximate shipping charges as well as any slight price increases. Any overage will be returned with your order or mailed promptly. In the event of any substantial price increases your order will be held pending notification and your approval. If insufficient or no remittance is included your order will be sent COD for the balance.

PRICING: Our catalogs no longer contain prices. Instead, we provide a supplemental price list, printed quarterly by our computer. Barring unforeseen circumstances, all prices will remain firm until the next price list is published. These price lists are available on the first (and become effective on the 15th) of January, April, July and October. A current price list will be included with each order and may also be obtained by sending a stamped, self-addressed (long) envelope marked "Price List". New items of interest will be mentioned in these price lists. All prices are subject to change without notice. A trade discount will be extended only to authorized automobile dealers, parts and service companies upon receipt of proper identification.

SHIPPING: All shipments will be made by the fastest, most economical method unless otherwise specified. We ship via United Parcel Service (UPS) whenever possible. Delivery of merchandise in good condition is the responsibility of the carrier. Should your parts arrive in a damaged or pilfered condition, check the contents against the enclosed invoice in the presence of the carrier. All shipments are FOB Goleta, California. A service charge may be applied on orders outside the U.S.A.

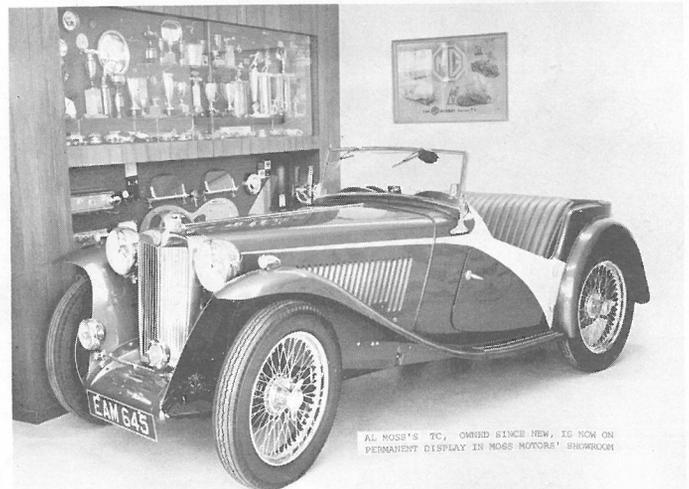

RETURNED PARTS: Should you receive an item not as ordered or defective in any manner, you may be assured that we will make adjustments as necessary to your complete satisfaction. No claims will be considered without your invoice copy. Except as above, credits or exchanges will be subject to a 20% handling charge, providing the parts pass inspection and the request has been made within 30 days of the purchase date. Bearings and electrical components are non-returnable. Unauthorized returns will not be accepted: Please write first!

WARRANTY: All parts are subject only to the manufacturers' warranties which cover workmanship and material of their product but do not cover labor or failure of their product as a result of misuse or faulty installation or failure of a related part.

BACK-ORDERS: While we make every effort to maintain a full inventory at all times, we occasionally run out of a few items. In order to provide the best possible service, albeit at a high internal cost, any item not in stock when your order is processed, and which we expect to receive within 60 days, will be back-ordered and forwarded as soon as our stock is in hand. This method insures you of a definite spot on our waiting list and receiving the item promptly with no price increase. Naturally, you may cancel a back-order at any time. Any item which is not expected within 60 days will be deleted from your invoice and, if an important item, we will notify you immediately it becomes available. If you prefer, you may specify "no back-orders" at the time you place your order.

ANOTHER NEW BOOK !!

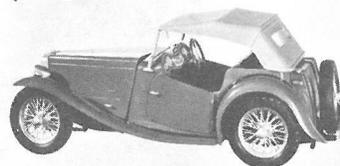

MG: THE SPORTS CAR AMERICA LOVED FIRST BY DICK KNUDSON

This recently-published (1975) book was written by the co-founder of the New England MG 'T' Register. It is an illustrated history of MGs in the U.S.A. and covers such subjects as pre- & post-war racing, how the dealer & distributor network grew, advertisements, etc. A most welcome addition to our expanding list of MG books. TOMPKINS STEERING KIT FOR THE TC

THIS IS OUR WORLD-FAMOUS TOMPKINS KIT FOR THE TC, WHICH WE FEEL IS DESERVING OF A PAGE OF ITS OWN IN OUR CATALOG.

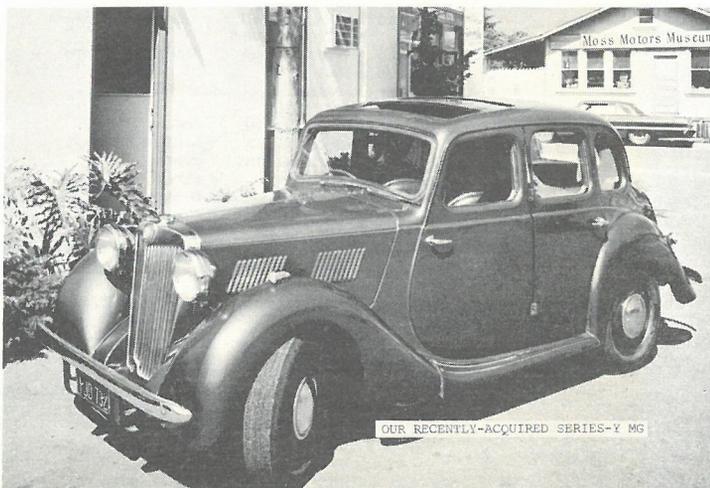

THE KIT CONSISTS OF A MACHINED AND POLISHED ALUMINUM CASTING WHICH HOUSES A TAPERED ROLLER THRUST BEARING AND SPACER. THIS REPLACES THE STEEL THRUST PLATE ON TOP OF THE STEERING GEAR, THEREBY ELIMINATING ALL DRAG AT THIS CRITICAL POINT, WHILE AT THE SAME TIME PROVIDING AN EASY AND EXTREMELY ACCURATE ADJUSTMENT OF THE SECTOR SHAFT. ALSO INCLUDED IS A NEEDLE BEARING WHICH REPLACES THE FELT BUSHING AT THE TOP OF THE COLUMN. COMPLETE INSTALLATION INSTRUCTIONS ARE PROVIDED.

WHILE WE HAVE SOLD HUNDREDS OF THESE KITS TO SATISFIED CUSTOMERS, WE EMPHASIZE THAT THE KIT WILL EFFECT ONLY A SLIGHT IMPROVEMENT UNLESS THE ENTIRE STEERING AND FRONT END ARE IN PERFECT CONDITION. WITH A PROPERLY SET UP FRONT END AND WITH THE ADDITION OF THE TOMPKINS KIT YOUR TC WILL BE A VERY PLEASANT CAR TO DRIVE.

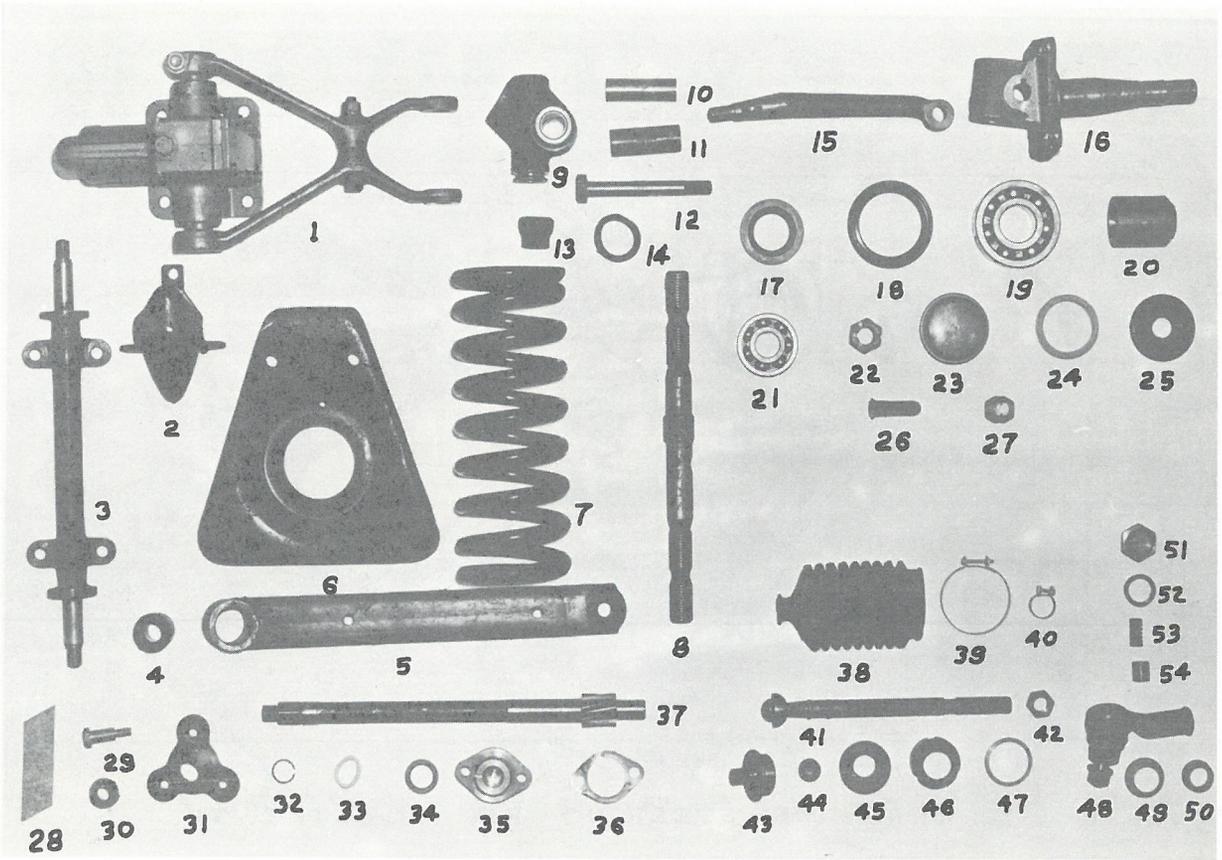

THE PART NUMBER FOR THE TOMPKINS KIT IS 260 118.

DOESN'T EVERYONE HAVE A LONDON TAXI ?

** DENOTES SELF-LOCKING HEX NUTS.

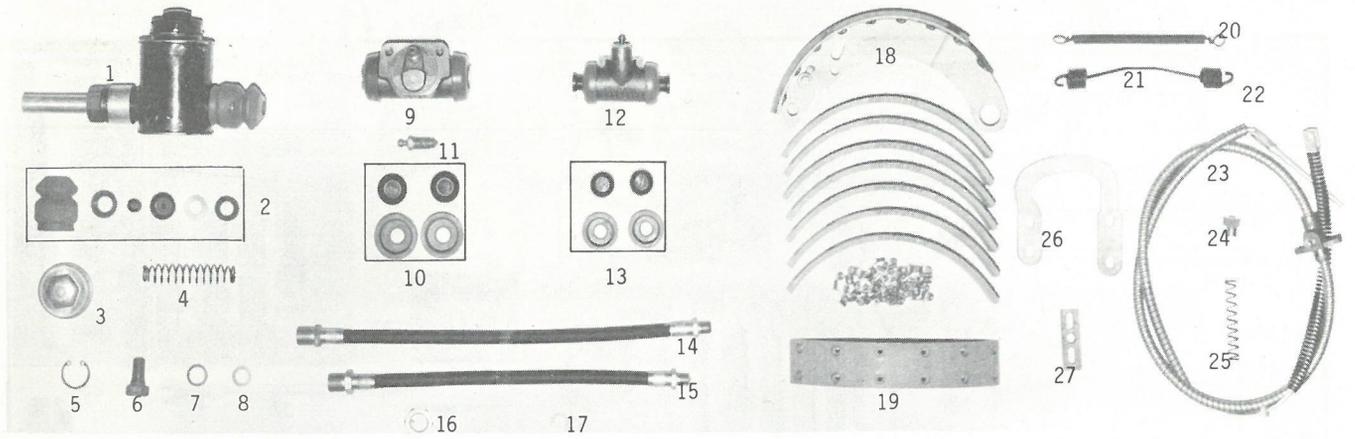

Above are common nuts & bolts: Always refer to the catalog for specific nuts & bolts. Most body & chassis threads are BSF; Most engine & gearbox threads are special metric. Whitworth (W) wrenches are used throughout; TDs after #12285 & TFs use some SAE threads. We are able to offer liberal discounts on the above items to dealers and repair shops.

TC # 235 008. TD # 235 108. TF # 235 208.

UNFORTUNATELY, OUR LEATHER UPHOLSTERY KITS WHICH WERE PROMISED IN EDITION SEVENTEEN, HAVE NOT MATERIALIZED YET. THIS PROJECT HAS BEEN DELAYED FOR SEVERAL REASONS: SCARCITY AND PRICES OF HIDES FROM ENGLAND, DUPLICATING THE ORIGINAL COLORS, A MORE-PRESSING URGENCY FOR ITEMS SUCH AS CAMSHAFTS, CRANKSHAFTS, CLUSTER GEARS, ETC., ETC. MAYBE LATER IN 1975 BUT DON'T HOLD YOUR BREATH IN ANTICIPATION! IN THE MEANTIME, WE CONTINUE TO SUPPLY THE AMCO KITS LISTED BELOW. THEY ARE OF EXCELLENT QUALITY; THE SEATS ARE PLEASED AS ORIGINAL AND THE DOOR KITS INCLUDE POCKETS AS WELL AS THE UNDER-DASH KICK PANELS. COLORS AVAILABLE ARE BLACK AND RED ONLY. PLEASE SPECIFY.
